

MAXIMUM CUT PROTECTION UNMATCHED DEXTERITY.

RECOMMENDED APPLICATIONS

STEEL • METAL FABRICATION • GLASS •
HEAVY MANUFACTURING

PRODUCT INFORMATION

The Cut F21 Nitrile Tungsten A9 glove is the pinnacle of cut resistant technology. Utilising an ultra lightweight 21 gauge liner for unrivalled dexterity from a glove offer the maximum cut protection to both European and American standards. The secret to the Cut F21 Nitrile Tungsten A9 is the Twin Core Tungsten yarn that provides cut resistance of over 6kg which is double the maximum level for EN388 and above the highest ANSI A9 cut level. Grip is achieved with a micro foam nitrile coating, providing secure grip in almost all working conditions. These gloves also feature touchscreen capability.

A680

HAND PROTECTION

A wide and increasing range of Hand Protection styles is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwest's extensive range of Hand Protection products.
